Any Questions?

### BENEFITS FROM SUCH A COURSE?

By attending an IRIS Pallet Racking Safety Awareness Course your staff will gain valuable understanding and allowable perimeters of racking damage, how to best eliminate damage, and in the event of damage evaluate the damage with confidence.

Taught by our own SARI - Sema approved Racking Inspector and Engineer you will benefit from the following:

- Safe and best practices.
- How to recognise, evaluate safety, and confidently access damage.
- Learn how to understand load notices and loadings.
- Taught how to set up a reporting procedure and the action required.
- How to eliminate damage from happening in the first instance.

### WHO SHOULD ATTEND?

The course is suitable and relevant to:

- All Warehouse Operatives
- Warehouse Supervisors
- Fork Lift Operators
- Management
- Health & Safety Personnel

### HOW MANY CAN ATTEND?

Suitable for up to a maximum of eight delegates at any one time. Special allowances can be made. Upon request.

### HOW LONG DOES IT LAST?

Designed as a one day course with both practical and theory aspects. However more condensed shorter courses can be arranged to suit customer requirements.

### WHAT DO I GET FOR MY MONEY?

- Extensive visual aids
- Personal hand outs
- A course certificate
- On going Technical assistance following the course from IRIS Technical Engineers
- Demonstration regarding the understanding of all related issues

### WHAT FACILITIES ARE REQUIRED?

- Suitable training room with power sockets and access to projector desirable
- Access to pallet racking for practical work

### HOW TO ARRANGE A SEMINAR?

To arrange a IRIS one day pallet racking safety awareness seminar, please telephone 01952 594522 or email [info@bobrichards.co.uk](mailto:info@bobrichards.co.uk) detailing your requirements and your contact details.
